

# Light One Candle (Cast the Darkness Out)

In the Holy Land long ago  
Israel was conquered by a foreign foe  
But the tiny army of Judah Maccabee  
Threw them out and set the people free.

Light one candle, cast the darkness out  
Small can win the day, there's no doubt  
That's what Chanukah is all about  
Light one candle, cast the darkness out.

The Temple menorah needed lots of oil  
But they only found one jar unspoiled  
They thought the oil would only last one night  
Eight days later it was still alight.

Light one candle, cast the darkness out  
Small can win the day, there's no doubt  
That's what Chanukah is all about  
Light one candle, cast the darkness out.

This is the lesson of the Feast of Lights  
Those that struggle on the side of right—  
Don't be discouraged by opposing might  
It isn't size but what's inside that wins the fight.

Light one candle, cast the darkness out  
Small can win the day, there's no doubt  
That's what Chanukah is all about  
Light one candle, cast the darkness out  
Light one candle, cast the darkness out.
