

# Old Loves

I could barely look at you, I wanted you so much  
It's a miracle my hands stayed by my side  
And when your fingers strayed to mine and again I felt your touch  
My joy was almost more than I could hide.

We talked but I cannot recall a single word we said  
My thoughts were miles and miles and miles away  
Another place, another time I'd given up for dead  
That came alive like it was yesterday.

Old loves  
In memory persist  
Old loves  
Are hopeless to resist  
What's done is done, what's passed is past  
And what was kissed was kissed  
But old loves  
In old hearts still are missed.

We parted with a quick embrace I wished would never end  
I felt like I was filming movie takes  
As Best Supporting Actor in the role of just a friend  
Who loved you once, whose longing heart still aches.

Old loves  
In memory persist  
Old loves  
Are hopeless to resist  
What's done is done, what's passed is past  
And what was kissed was kissed  
But old loves  
In old hearts still are missed.
