

We Never Talk Anymore

© 2019 Shelley Posen WELL DONE MUSIC BMI

We never talk anymore
I never get you on the telephone
How can I know the score
If we don't have a few words alone?
 I call and I call and you don't pick up
 But I won't kick up a fuss
 Maybe your mobile is out of juice
 Some excuse! Can we discuss?

We never talk anymore
You never answer when you see it's me
You're the party I adore
And my line is open as it can be
It isn't much I'm asking for
We never talk anymore.

 When I call your number, it rings and rings
 I hope everything's okay
 And I always wish when your line's not free
 It was you and me with lots to say

We never talk anymore
Maybe there's nothing to talk about
But talk to me I implore
And there's a chance we could work things out
I hope you'll open up that door
We never talk anymore.
