Ontario moon, shine on
Shine on the one I love
Light the way she's going
Where she is to-and-froing to
Shine your light so she
Will find her way home to me.

Ontario moon above
Up there among the stars
You were heaven-sent to
Guide two lovers meant to be
Bring her to my side
Like the gentle tide brings the sea.

Every night I see you shining
Silvery in the sky
And my lucky stars aligning
For a wedding day that's drawing nigh

Ontario moon, we know
We can depend on you
Help us find our bliss, or
We might miss a kiss or two
Shine your silv'ry beams
And make all of our dreams come true.
