

Dance With Me

© 2013 Shelley Posen Well Done Music BMI

Well you can

Sit at the bar all by your lonesome

Cry salty tears in your beers and moan some

Take a taxi home and have a nice cuppa tea

Or you can take a chance and come and dance with me.

And you can

Text on your phone, follow friends on Facebook

Check out your calendar and how your days look

Watch all the sports up on the big TV

Or take a chance and come and dance with me.

Come on and

Dance with me, darling, while the band is playing

Dance and the music gonna set you free

Dance – I can see your body gently swaying

Come on, baby, maybe take a ch-chance on me

Oh we can

Dance through the night, trip the light fantastic

Nice and easy—nothing too gymnastic

Take me by the hand and I will guarantee

You'll be glad you took the chance to dance with me.

Come on and

Dance with me, darling, while the band is playing

Dance and the music gonna set you free

Dance – I can see your body gently swaying

Come on, baby, maybe find romance with me

Oh we can

Dance through the night, trip the light fantastic

Nice and easy—nothing too gymnastic

Take me by the hand and I will guarantee

You'll be glad you took the chance to dance with me.
